Lyceum Northern Luzon

2010 – 2014

### About Me

Tech-savvy Full Stack Web Developer proficient in fundamental front-end languages and server-side languages. In-depth knowledge of MySQL and MongoDB. Analytical and precise professional with more than 8 years of hands-on experience taking charge of front and back-end web development. Skillful creating servers and databases for functionality and designing and developing APIs. Hardworking collaborator with track record of superior results.

### Professional Experience

#### Addessa Corporation | Full Stack Web Developer

*Sept 2015 – Jun 2020*

As the first web developer to integrate my projects, my goal is to create interfaces for utilizing Laravel + VueJS as our web portal system. The main focus is to create reusable components and integrate APIs that could be used in the future projects. I had work in this company for almost 5 years and I have learned a lot regarding technologies both frontend and backend.

#### Addessa Corporation | Network Specialist

*Sept 2015 – Jun 2020*

Manage networks to ensure the function efficiently. Tasks such as collection network data, monitoring network and security, troubleshooting issues, anticipating problems, performing routine maintenance and configuring firewall devices. Making sure IP addresses are fully utilized and maximized. Established network communication protocol and tracking system which helped in bringing down uninformed network change.

#### Esco Philippines Inc. | Full Stack Web Developer

*Aug 2020 – Sept 2023*

As experienced fullstack web developer, tools and technologies I used has already been improved. More knowledge and experience has been added. I developed a dynamic survey app for sales and customers. I also created an employee engagement system for the company and develop an API for DynamicNavs using nodejs to be consumed by other web apps. Developed an app to organized Gallery - Album - Photo with tagging, viewing, downloading functions. Also joined a team to be involved in developing CMS.
